DESCRIPTION

TIGER MASTER

Welding boots are primarily used by welders and other workers who are exposed to high heat, flames, and sparks. These boots are designed to protect the feet and lower legs from burns, cuts, and other injuries that can occur in a welding environment. Welding boots are also commonly used in other industries where workers are exposed to similar hazards, such as metal fabrication, construction, and manufacturing. They are also suitable for use in other high-risk environments where safety footwear is required, such as oil and gas refineries, chemical plants, and power plants. Overall, welding boots are essential safety equipment for workers who are exposed to heat, flames, and other hazards in their daily work.
